To Whom It May Concern:

SWPRSC CRN 16062950 requests a waiver of filing deadline on behalf of BEN 138191 Satanta USD 507. SWPRSC requested both internet service and leased fiber service on form 470 #190014922. The internet service was on a 5-year contract beginning in 2015. We complied with all regulations pertaining to the Form 470 process. However, when we completed form 471 #191030188, we simply overlooked the leased lit fiber portion of the request. This is our first year as erate consultants.

Satanta has been with Pioneer for several years, and only received one bid for the services. The USD is located in a very remote area of SW Kansas, and has no other option for service. Satanta USD 507 is very small and relies heavily on USAC funding to offset the cost of internet/fiber services. The quote from Pioneer Communications is included below. This quote is the same price and service as 2018.

Here is the bid from Pioneer Communications.
